**Embargo until 9th of April 2024, 2 pm CET**

## Press Release Masters of Horology

[Geneva, 09.04.2024] KUDOKE, renowned for its hand-finished masterpieces of watchmaking, is delighted to unveil three new products at the unique "Masters of Horology" exhibition of independent watchmakers in Geneva from April 9 to 14.

The centerpiece is the exclusive special edition KUDOKE ∞ (KUDOKE Infinity), a watch that redefines the boundaries of watchmaking and combines timelessness with the highest level of craftsmanship.

In addition, new variants of the popular KUDOKE 2 and KUDOKE 3 models will be presented.

Visit us and our colleagues from AHCI and experience the fascinating world of independent horology!

Location: L'Ice Bergues Exhibition Center, Place des Bergues 3, Geneva, Switzerland

Opening hours: 2 pm - 11 pm from 9-13.4. and 2 pm - 6 pm on 14.4.2024

A promotional poster for the 'Masters of Horology' exhibition. The background is a teal gradient with a faint image of watch gears on the right side. The text is white and arranged in a clear, hierarchical layout.

## KUDOKE ∞ (KUDOKE INFINITY)

A special edition of the HANDwerk series that redefines the boundaries of the art of watchmaking

The exclusive special edition KUDOKE ∞ is equipped with a dial made of blue Goldstone and a hand-guilloched movement bridge, which literally demonstrate the infinite possibilities of the art of watchmaking.

The Goldstone dial, also known as aventurine glass, catches the light in a fascinating way and creates a sparkling interplay that catches the eye. Goldstone, a glass interspersed with fine copper particles, gives the dial a unique shine and a profound texture reminiscent of the mysteries of the universe.

However, the centerpiece of this extraordinary watch is the hand-guilloché movement bridge. The finest lines adorn the white rhodium-plated bridge and form a pattern that, starting from the frosted balance cock, is reminiscent of a shining star. Every detail, from the intricate lines to the complex patterns, is a tribute to traditional craftsmanship and reflects the dedication to perfection for which Kudoke is renowned.

The shape of the hands of the "KUDOKE ∞" also picks up on the theme of infinity. As with the existing models in the HANDwerk collection, the hands are designed in the shape of infinity signs, making the watch a truly harmonious work of art.

"The "KUDOKE ∞" is not just a timepiece, but a symbol of eternity and infinity. Each watch is unique and an expression of individuality and style," said founder and master watchmaker Stefan Kudoke. "This watch embodies the essence of Kudoke: aesthetics, craftsmanship and timeless elegance."

Due to the time-intensive handcrafted production, "KUDOKE ∞" will be available as a special edition with an annual production of only 12 pieces at a price of EUR 14,170 plus VAT.

## KUDOKE 2 - RHODIUM

The award-winning model KUDOKE 2 is now available in a light gray in addition to the already familiar dial variants. This elegant shade is created by electroplating the frosted base dial with white rhodium, which is also used for the dial rings.

The coloring gives the watch a modern touch while retaining its classic beauty. The blued steel hands stand out elegantly from the dial and ensure excellent legibility.

Available to order now from authorized KUDOKE retailers.

Price: EUR 11,190 plus VAT

## KUDOKE 3 - SALMON

Following the initial launch of the model with the special hour display last year, KUDOKE 3 is now also available in a second color variant: the upper dial in a warm salmon tone sets a wonderful color accent and makes this extraordinary watch a real eye-catcher. The subtle color nuance harmonizes charmingly with the blued steel hands, which provide the perfect contrast.

Available to order now from authorized KUDOKE retailers.

Price: EUR 9,350 plus VAT

## STEFAN KUDOKE

"More than 20 years ago, Stefan Kudoke said to his current wife "I have a crazy idea! I'm going to make my own watches." At the time, he was a student who had already completed his training as a master watchmaker and had worked for renowned brands such as Glashütte Original, Breguet and Blancpain. When he then pursued this dream full-time by founding "KUDOKE" in 2008, he made a name for himself as a creator of exceptional hand-skeletonized and engraved art watches, which can now be found under the KUNSTwerk collection.

With the introduction of a second model line under the name HANDwerk, Stefan set new accents. Timeless design with a strong recognition value meets traditional watchmaking craftsmanship.

Stefan is now a member of the renowned Association of Independent Watchmakers AHCI ([www.ahci.ch](http://www.ahci.ch)). In 2019, he was the first independent watchmaker from Germany to receive the prestigious GPHG Award for his KUDOKE 2 model, and in 2023 he was allowed to help decide on the awarding of these watch Oscars as a juror.

Today, Stefan and his wife Ev run the small family business with five employees in the picturesque village of Weifa in Saxony. Just last year, the company moved into a new manufacturing building, where the KUDOKE family creates small works of watchmaking art for the world.
